

Delivering first-class connections.

HOSPITALITY COMMUNICATIONS SOLUTIONS

In the ultracompetitive hospitality sector, technology continues to reshape the industry – delivering seamless hotel operations and amplified guest experiences.

Indeed, the lifeblood of any hotel operation is the communication system – a PABX/telephony network that needs to be robust, 'feature-rich' and deliver '5-star' experiences.

Welcome to Fortinet's FortiVoice Enterprise Phone System and FortiVoice Hotel Management – 'quality comms' that outshine the competition and caters to the 'age of customer.' The goal? To amplify guest experiences and strengthen staff interactions – a mission impossible with today's traditional telephony systems.

FEATURE SUMMARY

Simplified Managing

FortiVoice™ Enterprise Phone Systems bring centralised management to new heights, allowing you to reduce IT overheads and operating expenses. Configure and update your connected systems easily across multiple locations, monitor real-time performance and access reports.

Rich Features

Auto attendants, auto-provisioning, line/extension appearance, ring groups, user privileges, call queue, call barge, multi-location integration are all built-in features – and that’s just the beginning. Through a series of advanced capabilities, the system is designed to save you the hassles associated with traditional, more restricted phone systems.

Value & Scalability

Setting Fortinet apart from other PBX providers, there’s no hidden costs on advanced features or recurring subscription fees, ensuring transparent pricing, simplicity and affordability. Whether positioning the system in a smaller establishment or a larger hospitality venue, it accurately scales and caters to your unique business requirements.

FortiVoice™ Gateway - Business Continuity

Integration with FortiVoice™ Gateway safely secures your system with local survivability, allowing for ‘always on’ communications in the event of a natural disaster or emergency.

Fortinet FON-175 a popular choice for guest rooms.

Hotel Management

Empower your guests and staff with FortiVoice Hotel Management, an optional add-on with FortiVoice Enterprise Systems. It’s scalable, and depending on your needs, allows from 50 extensions up to the maximum capacity of the base system.

KEY FEATURES

- Check in/check out**
 Easily set room phones on ‘check in’ with the guest’s name as caller ID; also enjoy the dedicated voicemail and privilege-based call control.
- Wake-up Calls**
 Guests can set their own wake-up calls and reminders – directly from their phones or by accessing the user portal.
- Room Condition Codes**
 Staff can set room condition codes from the room phone, including standard housekeeping pre-sets and customisable codes for special conditions.
- User Portal**
 Guests can manage their voicemail and customise their own settings without consuming staff resources.

...and more.
